### Change in Leadership at Hanover Family Health Team

After 10 years of service as the inaugural Executive Director for the Hanover Family Health Team, David Ford is retiring. David was the architect of the Hanover Family Health Team developing its relationship with the medical clinic, hospital and many other community partners. He also led the delivery of many programs and services that support Hanover and surrounding area residents.

Dave Zago has been hired to take over from David Ford. Dave previously worked with the Hanover Family Health Team and several other local Family Health Teams leading their quality improvement programs and supporting the optimal use of their electronic medical records systems. Dave Zago has an extensive background with health services planning, management and quality across the region and with the province.

Dr. Nick Abell, Family Health Team Board Chair says “David Ford is a true champion of our community. He has always advocated for our patients and our staff. He leaves behind a great team, culture and legacy. On behalf of the board, we congratulate David on his retirement. We welcome Dave Zago and look forward to working with him to continue to advance the Family Health Team as a key partner in our local health system.”
